All the Grain Markets Closed Stronger on Better Advices from Washington.

CORN OPENED WEAK BUT IMPROVED

General Impression Among Pit Traders Wa that Liquidation by Country Holders Had Ceased and that Chances Favored Buying in Future.

CHICAGO, Jan. 30 .- Encouraged by the hope of a speedy relief of the present rained financial condition, Board of Trade speculators today closed their heavy liquidand all the grain markets closed higher. May wheat gained 1/2c, May corn %c, and May oats %c. Provisions finished with but little change. Wheat got a weak start, and for a few minutes it looked as if there might be a repetition of yesterday's unloading of the bull holdings. Long wheat did not come out, however. The Liverpool market was a shade steadler at ¼d advance but on the other hand the northwestern recelpts for the day were heavier than they were on the corresponding day last year and the Berlin market was 1 mark lower. An impression that congress would have to do something in line with the president's recommendation was largely helpful. The total receipts at primary markets were only 168,600 bu, compared with 231,000 bu, a week ago, and 237,000 bu, a year ago. The advices received here from St. Louis, Kansas City, Detroit and other markets of less importance were that country millers were drawing from the stocks at those places. It was said that much heavier purchases for export were made yesterday at the seaboard than had been given out, the New York takings, it was said, having amounted to 5,24,000 bu. At Chicaso 120 carloads of No. 2 red were reported to have been sold late yesterday afternoon for rail shipment to the seaboard. When later in the day it was wired from New York that Secretary Carlisle was about to arrange for the placing of \$100,000,000 of bonds at once to relieve the present depleted state of the treasury, the market became firm and sold up to 53%c for May about an hour from the close. The opening price was from 52%c to 52%c, as against 52%c bid at the close yesterday. It advanced to 53c, sold off again to 52½c, improved to 53%c, as already mentioned, and was quiet but steady at 53%c at the close. 168,000 bu., compared with 231,000 bu. a week orn was weak for a few minutes at the

Corn was weak for a few minutes at the start, due to the stumpy beginning made by wheat. The former was the first to show a return of confidence and ruled firm all day after the first half hour of the session. The opening price of May was very irregular, there being sales simultaneouly at 43%c and 43%c, principally, however, at the lower quotation. It gradually hardened until just as the market was closing, from 4c to 44%c was paid. It closed with 4c as the general trading price. The receipts were light today and estimates small for tomorrow. The general impression among the pit traders was that liquidation by country holders had ceased and that the chances in the near future were in favor of the buying in soft spots. Oats started firmer and remained so dur-

Oats started firmer and remained so during the entire session, excepting at one time just before the opening, when the price fell ½c under. The market closed with the high prices prevailing. Business throughout was active. The parties who yesterday put forth their best efforts to raid the market were prominent today for free buying. The general buying was also good, and notwith-standing the fact that commission houses continued to pour in country long stuff, the market was strongly held. Sympathy with the neighboring cereals was greatly influential in creating some firmness. May started at from 28%c to 28%c, sold down to 28%c, and up to 29c, where it closed.

The provision market was overwhelmed at the beginning by the news from the yards. Instead of 36,000 hogs, as estimated, 42,000 head was given as the day's run, and 35,000 head was given as the day's run, and 36,000 head as the probable receipts for tomorrow. The opening prices for pork, lard and ribs were at from 5c to 10c below the closing prices of the day before, but the rates made at the beginning were at the bottom or nearly so, of the day's range. Packers bought at the decline and took in the course of the day enough to cause a recovery of the early loss. Pork and lard, commared

of the day enough to cause a recovery of the early loss. Pork and lard, compared with the closing prices yesterday, were un-changed, and ribs 2½ lower. Estimated receipts for Thursday: Wheat, 20 cars; corn, 102 cars; oats, 100 cars, and

30 cars; corn, 102 cars; oats, 100 cars, 36,000 head of hogs. The leading futures ranged as follows: Articles. | Open. | High. | Low. | Closs.

Whisky Trust Stock Was Sold but Only to a There Was Only a Light Run of Cattle Moderate Degree. Yesterday,

NEW YORK, Jan. 30.-The fact of the appointment of receivers for the Distilling and Cattle Feeding company, which was known to a few after the close of business yesterday, became public property this morning and induced selling of the stock, morning and induced selling of the stock, but only to a moderate degree, less than 15,000 shares having been dealt in up to noon, and only about 4,000 shares during the rest of the day. On the early selling the stock declined ½ per cent to 7%, but subsequently recovered the full loss, reacting to 8, and by noon rallying to 8½. During the afternoon the shares fluctuated between 8% and 8%, closing at the lower figure, being only ½ per cent down on the day. ure, being only 14 per cent day. Severe criticisms were passed by the Severe criticisms were passed by the

day.

Severe criticisms were passed by the street upon the action of President Greenhut in endeavoring to forestall the stockholders' protective committee in its investigation of the company's affairs and Judge Groscoup did not escape condemnation for having made the appointments out of court, thereby affording an opportunity for the withholding of the news from the public for about twenty-six hours. The stock was well supported under the circumstances and the bears were deterred by this fact from putting out too many short lines.

There will be an active legal fight made by the protective committee for the removal of the receivers. The committee alms to have proxies for a large majority of the capital stock which have been forwarded to Chicago to be used for the purposes of the committee at the annual meeting and possibly in court proceedings.

The national financial situation was a source of much anxiety to the operators on the Stock exchange and the uncertainty undoubtedly restricted the transactions and unsettled the speculation. The announcement that Secretary of the Treasury Carlisle was coming to New York to confer with bankers was made early in the day and caused discussion as to whether his mission was to prepare the way for a bond issue or to take up the gold shipment question. Subsequently it was learned from the Associated press dispatches that Mr. Carlisle was not coming, but that Assistant Secretary Curtis was on his way to this city, and it was at once accepted as a fact that he was the bearer of a commission to treat for the floating of the new bonds, which rumor had it were to be 4 per cents.

The withdrawals of gold from the subtreasury were \$2,600.000 all of which it is

weak.

bonds, which rumor had it were to be 4 per cents.

The withdrawals of gold from the subtreasury were \$3,600,000, all of which it is said will go forward on Saturday next. Considerable discussion was created by the National Bank of Commerce's resolution calling on the Clearing House association to rescind its rule against the opening of special gold accounts by the banks. All the officials of other banks who would speak on the subject condemned the proposition as putting gold in a preferred class of money, and all agreed that if the clearing house should grant the request (of which there is believed to be no possibility) the drain on the treasury gold would be still heavier than it is now.

All of these circumstances tended to an

ury gold would be still heavier than it is now.

All of these circumstances tended to an irregular stock market, and during the greater part of the day the general list fluctuated generally between strength and weakness, but toward the close there was fairly good buying, which imparted a strong tone to the final dealings. Compared with yesterday's closing figures the last prices made today are mainly higher, and particularly for the active list. There was less activity to the trading in bonds today, and the temper of speculation was generally heavy. Towards the close there was a spurt in some of the speculative issues, but an unsettled tone prevailed at the close. Total sales, \$1,031,500.

The Evening Post's London cablegram says: The stock markets were dull today. Consols were lower. Americans were flat, but closed nearly 50c better. The money market is tightening a little on the possibility of an American loan.

The following were the closing quotations on the leading stocks of the New York exchange today:

HOGS—There were 122 fresh loads in the yards this morning, being the heaviest receipts in some days. In addition to the fresh arrivals there were 1,000 holdovers from the day before, making the total offerings 19,000. With so many hogs on sale and only about the usual demand a lower market would naturally be expected. The big slump in the provision market, however, rendered the situation much worse for the selling interests, and the market, to repeat the phrase in common use in the yards, was simply rotten. The buyers would bid sometimes not over 25c lower, but it was nothing unusual for a salesman to claim that he had not been bid within 30c or 40c of yesterday's early market. The buyers apparently did not care for the hogs unless they could get a great big reduction. Salesmen were slow to cut loose at the bids made, and very few loads were weighed up before midday. In the end a goodly proportion of the offerings was taken, the general market being about 25c lower. Toward the close one load of choice heavy hogs brought 44, as against 44.15, the top yesterday, and 41.25 on Monday. Good hogs brought from 33.60 to 33.76, with loads averaging under 200 lbs. from \$3.60 down to \$1.35. Representative sales:

New York Mining Quotations.

BONDSMEN WILL FIGHT HARD

Treasurer Taylor's Sureties Do Not Propose to Make Good the Shortage.

LITTLE PROBABILITY OF A COMPROMISE

If the State Tries to Force a Settlement in Full, the Defendants Propose to Make Matters Very Lively for a Number of Officials.

suit of the state against the Taylor bondsmen. Both sides would be glad to comon Monday was \$5.15, and \$5.05 was the top yes- At the present time the bondsmen are searching for some means of avoiding this con-

have found a buyer today at more than \$5. From \$1.50 to \$4.50 bought the bulk of the steers and \$2 and \$3 were popular prices for cows and bulls. The range of quotations for common to choice steers was from \$1.25 to \$3.25.

The hog market went to pieces today. The doubling up in the receipts and yesterday's break in provisions demoralized buyers and sellers allke and within an hour after the opening of business prices had fallen from 20c to 25c. The best heavy hogs went down to from \$1.25 to \$4.25.

In sheep yesterday's estimate was too low. The market was slow from the start and sales, almost without exception, were at lower prices. The range of quotations for common to extra sheep was from \$2.50 to \$4. although the most of the trading was at from \$3.50 to \$4.25.

Receipts: Cattle, 19,000 head; sheep, 15,000 head.

New York Live Stock Market. the public examiner should have discovered the shortage as early as December 1; that had he done so the \$200,000 in cash which Taylor carried off would have been saved, and that therefore the state being guilty of gross negligence the liability of the bondsmen is

They also state that when the suit comes to trial they will be able to show that the treasurer had loaned a considerable sum of noney to a number of influential politicians some of the state officials, and that the latter being under obligations to the treasurer were not in a position to force him into a rigid compliance with the statute. This is the third point upon which they will rely in their defense. The fourth and most important point is this: Taylor occupied the office of treasurer for four years, being once re-elected. They state that a certain part of his defalcation took place during the secnd term. They state that it will be abso lutely necessary for the state to show in de-tail when he misappropriated the state money in order to fix the liability of the bonds

Most of the South Dakota bondsmen are already in town, and they have consulted among themselves and with others. They declare unqualifiedly that if the state pushes for the full amount it will be beaten, and will recover little if any, and probably none at all. They also declare that if they were pressed to do so, they will make so searching an examination not only of the treasurer's office, but those of the other state officials, and will show so great a looseness and disregard of statutes that nearly every state official will be implicated for neglect, while some may be more severely used. LITTLE WORK IN THE LEGISLATURE.

The legislature last week adjourned over from Friday till Tuesday and the amount of work done has therefore been comparatively slight. The coming week is expected to develop much interest. The bill which passed the senate by an almost unanimous vote, calling for a constitutional convention, is meeting with much opposition in the house and is practically certain to be defeated there. A two-thirds vote is required to pass it, and already more than a third of the members have declared emphatically against it. The ground of their opposition lies in the expense. A constitutional convention would cost fully \$50,000 to hold and the election would cost \$20,000 more. This is a pretty expensive matter in hard times. The principal argument in favor of the con-vention lies in the belief of many of the members that the present limit of debt and taxation is too low, but it is pointed out that those defects, if there are such, can be removed by a simple amendment, and that the value of the repeal can through the amendment process be secured in two years, while the benefit of the new constitution would not be realized under four.

BLACK HILLS IRRIGATION. Senator Wilson, the leader of the Black Hills members, is deeply interested in the question of irrigation. He has made a study of the California laws on the question, and proposes to introduce a bill containing the best provision of those laws. The eastern part of the state must utilize artesian wells for irrigation. The Black hills are more fortunate. There are surface streams in large abundance flowing at such an altitude that irrigation is an easy matter. The senator tells that the Cheyenne river, with the Fall river and other streams flowing through the southern hills can be readily through the southern fills can be readily utilized for irrigation purposes and that already a great ditch has been dug in Fall River county, fourteen miles in length, to convey this water to the land. He states that practical experiments have already demonstrated the desirability of artificial watering in the Black Hills and that with suitable laws there would be no great. with suitable laws there would be no great lifficulty in making the prairie country and the foot hills exceedingly prospercus agricul-turally. He favors the formation of irri-gation districts, which shall be allowed to ond for the practical construction of ditches from streams or sinking wells, as is done in California, and which shall operate very much as joint stock companies. TOMLINSON

ROTHSCHILDS MIGHT TAKE IT.

Money is Ready in London if the United States Offers a Loan.

NEW YORK, Jan. 30 .- A London cablegram to the Evening Post says: There is reason to believe that preliminary negotiations for a sterling loan to the United States government are being discussed by States government are being discussed by the Rothschilds and another house, but nothing more definite is yet known. The question entirely centers on congress, and in regard to the action of that body the public and financiers here are alike perplexed, although private advices from Washington again speak hopefully of the passage of a measure. A gold loan to yield about 3 per cent would probably be well received here. The latest talk is of the issue of the United States treasury notes by the Rothschilds.

Burlington Supply Store at Sheridan. SHERIDAN, Wyo., Jan. 30.—(Special.) SHERIDAN, Wyo., Jan. 50.—(Special.)— The Burlington Railroad company has lo-cated a company supply store in this city. Mr. Richie, assistant master mechanic at the Sheridan shops, will be the store-keeper, and George Rule of McCook, Neb., will be his assistant.

Foster Won a Potato Prize. BUFFALO, Wyo., Jan. 30.—(Special.)— David Foster, a Johnson county ranchman, has been awarded the \$100 prize offered by a Philadelphia seed house for the finest specimen of potatoes grown from seed fur-nished by the house.

Family Burned to Death. BISMARCK, N. D., Jan. 30.—Peter Olson, wife and three children, living near Sterling, lost heir lives by fire last night. Olson was manager of the farm of Judge Dwyer of Day-

CANE SEEDS J. G. PEPPARD,

\$330.00 for an Idea.

This is the biggest price ever offered for a stch line or heading for an advertisement. Hayden Bros. will give a choice of several first class planes worth \$300.00 each for the head line adopted and in addition will give orders on their music department for \$50.00 worth of music for the next five best ideas. according to merit.

To secure an absolutely impartial decision

applicants are requested to sign in number only and to mail corresponding number with name and address to The Bee office, where it will remain until after the award is made. The right is reserved to use any head line

The following are the facts to be advertised: Hayden Bros. of Omaha are the only firm in the world showing a complete line of the instruments manufactured by the five PIERRE, S. D., Jan. 30.—(Special.)—A most renowned plane makers on earth. Hay-great deal of interest has been felt about the den Bros. are not tied up with red tape restrictions like regular selling agents, but are free to make the lowest prices ever heard of. men. Both sides would be glad to com-promise on a reasonable sum, but that seems Steinway and Vose planos because they have impossible. The bonds amount to \$350,000. The present property of the bondsmen probably would not reach half that sum. Most of the property is heavily encumbered and if sold at forced sale at the present time would from the Max Meyer & Bro. Co. stock. Music bring only from \$100,000 to \$150,000. The trade papers are saying planes cannot be sold bondsmen have offered to turn this property in a department store, but sensible people who do not care to be hoodwinked by silly frills are not so notional and the best proof of this is that Hayden Bros, sold more officials and the majority of the legislature planes, organs and musical instruments in would be glad to accept, they are met with one week than any five music stores west of Chicago have sold in six months. The music trade papers say this innovation will be watched with unusual interest and Hayden Bros, propose to keep them guessing.

PATRONIZE
